Getting Around in the Winter

Between Solitude Village (Entry 2) and Moonbeam Base Area (Entry 1):

Skiers can access the Solitude Village from the top of any chairlift, but the quickest route is to ride the Link chairlift from the Moonbeam Lodge base area, then ski directly to the Solitude Village. For ski access to the Moonbeam base area from the Solitude Village, walk across the Village Bridge towards Last Chance Lodge **10** and up the short hill onto Easy Street, a beginner trail.

Legs tired? Catch the Solitude Shuttle in front of Moonbeam Lodge **13** and take a ride to the Solitude Village. **10** The Solitude Shuttle runs frequently between both locations during the winter; call 801.534.1400 for exact times.

Between Solitude Village (Entry 2) and Nordic Center:

The Nordic Center is located an additional two miles from Entry 2 up Big Cottonwood Canyon. Three shuttles operate from the Solitude Village **2a** to the Nordic Center daily, departing at 10:00 a.m., 1:00 p.m., and 3:30 p.m. For those who already have Nordic skis or snowshoes, the Nordic ski and snowshoe trail system can be accessed from the Solitude Village on the Solitude Street trail that begins behind The Inn at Solitude.

Getting Around in the Summer

During the summer season, most activities occur in the Solitude Village. Parking at Entry 2 is usually available, and if you are attending an event at Last Chance Lodge, Entry 2 is the closest parking option.

Easy Street run, adjacent to the Link chairlift, connects the Solitude Village and Moonbeam base area and offers an easy walk between the two.
